SUBJECT INDEX

A

Abscessed teeth, 682
deciduous, 876
Absent or dwarfed maxillary lateral incisors, inheritance of, in three generations, 439
Acidophilus and caries, 381
Action of Board of Trustees of American Dental Association, 397
Address of welcome, American Society of Orthodontists, 913
Adrenal glands, 857
Adult cases, can they be treated successfully? 702
compromise treatment in, 572
Age, changes in dimensions and form of dental arches with, 357
Air, fresh, 766
Allergic stomatitis, 754
Alloy, base metal, 1005
chrome, and dissimilar metals, recent galvanic tests with, in mouth, 301
technic, evolution of, 346
Alloys, low cost, and their application in practice, 177
wrought, standards for, 1004
Amalgam, 584
American Board of Orthodontia, 110, 209, 305, 406
American Dental Assistants Association, 504, 600, 697, 796, 901, 999
American Dental Association, action of Board of Trustees of, 397
impressions of officers of, on European dentistry, 995
American Society for Promotion of Dentistry for Children, 795, 900, 998
committee reports of, 661, 863
in memoriam resolution, F. Blaine Rhobotham, 696
president's address, 658
report of St. Paul meeting, 655
American Society of Orthodontists, address of welcome, 913
changes for constitution and by-laws, 161
New York meeting, 107, 206, 209, 305, 400, 693
officers and committees for St. Louis meeting, 901
president's address, 905
program for New York meeting, 400
reorganization of, 157
scientific exhibits for New York meeting, 210
Anatomy for dental students, (book review), 487
Anesthesia, block, 877
general, ethyl chloride, 278
for children, 184
infiltration, 877
pressure, 877
Anesthetic, topical, for oral tissues, 768
Angina, Vincent's, 1171
Anglo-Saxon skulls, dentitions of, in reference to malocclusion, 133
Anomalies, dental, etiology of, 9
Anteroclusion treated at early age, 952
with mild macromandibular deformity, 258
Antiseptic action of saliva, (abstract), 388
Aphthae, 751
Appliance, chromè alloy, polishing, 744
technic of soldering, using city gas, 570
for correction of unilateral mesiodistal malrelationship, 25
sliding device for deciduous teeth, 326
Applied orthodontics, (book review), 986
Arch, deciduous, normal, calculation of, 1042
expansion, simple labial, 842
Arches, alignment, forces applied to individual teeth by, instrument to determine and equalize, 1146
changes in dimensions and form of, with age, 357
dental, growth and development of, 928
lingual, of chrome, soldered, 743
stainless steel, one piece, with auxiliary springs, technic of constructing, 841
Arizona, dental law of, 496
orthodontic law, 598
Asociacion Mexicana de Ortodoncia, 210
Association of American Women Dentists, 901, 999
Attachment, labial, snap-lock, interchangeable, 1071
lingual, self-locking, 1071
Russell, and its improved advantages, 837
soldered to chrome bands, 741
welded to chrome bands, 741
Auxiliary springs, one piece stainless steel arches with, technic of constructing, 841

B

Babies, healthy babies are happy babies, (book review), 89
Baboon, osteomalacia with severe caries of maxillary canines in, 672
Bacillus acidophilus and caries, 381
Band construction of chrome alloy, 740
Bands, retention of, by cements, 1007
seamless, of chrome alloy, 741
Base metal alloys, 1005
Bashful and shy child, 269
Belgian National Dental Congress, fourth, 505, 601
Bidford-on-Avon skulls, dentitions of, in reference to malocclusion, 133
Biochemical hypothesis for bone and tooth resorption, 389

Biologic consideration of practice of orthodontia, 319
phase of orthodontia, 236
Bismuth poisoning, 753
Bite, dual, problems of, with particular reference to temporomandibular articulation, 40
plane construction, chrome, 743
plate, palatal, is it advantageous in Angle Class II malocclusions? 354
Block anesthesia, 877
Bone and tooth resorption, biochemical hypothesis for, 389
changes in, during growth, 1126
British Society for Study of Orthodontics, 307
Building efficient masticatory machines, 248
Burn, malocclusion caused by scar tissue from, 1141
Business conduct of ethical practice, (book review), 780
Bustin, roentgen studies of malocclusion from articles of, 745

C

Calcification and development of human deciduous and permanent dentition, (abstract), 592
of pulp after trauma, (abstract), 295
Calcium metabolism, 249
consideration of, 1152
Candy, 766
Canine, maxillary right, linguoversion of, 572
permanent, provision of accommodation for, 1042
Canines, impacted, inlay attachment in movement of, 20
severe caries of maxillary, osteomalacia with, in captive baboon, 672
Caries and Bacillus acidophilus, 381
building resistance to, 456
classification of, and its relation to pulpless teeth, 874
extensive, causing malocclusion, 12
in school children, 777
of maxillary canines, osteomalacia with, in captive baboon, 672
problem of, in dentistry, 29
Cases in orthodontic practice, 640
Cavity preparation, 1165
in deciduous teeth, 271, 957
Cement bases, 586
liquids, 169
powders, 168
Cements, dental, 168, 1006
for temporary fillings, 277
retention of bands by, 1007
Chicago Dental Society, 1098
midwinter meeting of, 110, 999, 1097, 1190
Child, dentistry and, 1078
frightened type, 268
health day, 355
Child—Cont'd
in elementary school, orthodontic treatment for, 309
incorrigible type, 269
management, 164, 268, 1163
psychology of handling, in dental office, 283
shy and bashful type, 269
temperamental and hysterical type, 269
Child's dental health, diet and, 860
mouth, surgical considerations in, 870
Children, Cleveland, mouth hygiene for, 975
general anesthesia for, 184
handling of, 164
office management of, 268
why they do not grow in weight and mentality, 756
young, dentist's management of, 78
Children's dentistry, ethyl chloride in, 278
in curriculum of dental school, 173
low cost alloys in, 177
observations on general practice of, 573
some practical points on, 1163
Chrome alloy and dissimilar metals, recent galvanic tests with, in mouth, 301
appliances, polishing, 744
technic of soldering, using city gas, 570
in orthodontia, is it here to stay, 594
materials, technic of handling, 740
technic, evolution of, 349
lingual arches, soldered, 743
soldering, for orthodontic use, 955
wires, soldering, 741
welding, 742
Class I malocclusion, 653
complicated by supernumerary incisor, 736
response to treatment, 1076
Class II, division 1 malocclusion, treatment of, 346
is palatal bite plate advantageous in, 354
Class III malocclusion, 643
Classification of dental caries and its relation to pulpless teeth, 874
of malocclusion, 518
Cleft palate, 703
as cause of malocclusion, 12
Cleveland school children, mouth hygiene for, 975
Clinic, dental, Murry and Leonie Guggenheim, 777
Collections and credit of professional men, 694
Colorado, dental practice act of, 493
State Board of Dental Examiners, 796
Columbia University, extension orthodontic course at, 407
Committee reports, American Society for Promotion of Dentistry for Children, 661, 863
Compromise treatment in an adult, 572
Contagious diseases, oral manifestations of, 751
Copper amalgam for filling deciduous teeth, 276
poisoning, 754

Course outline for teaching undergraduate orthodontia, 617
Credit and collections of professional men, 694
Crisis in orthodontia, 50, 153, 243, 333, 445, 531, 621, 733
Critical review of publications of J. A. Marshall, 531, 621, 733
Cross-bite case, 847
  diagnostic examination of anomalies in, 704
  two cases in same family, 1119
Crown, volume of, of deciduous and permanent teeth, 477
Crusaders, purity, 897
Curriculum of dental school, children's dentistry in, 173
  orthodontic, undergraduate, 202

D

Dallas Midwinter Dental Clinic, 107
Deciduous and permanent dentition, development and calcification of, (abstract), 592
  arch, normal, calculation of, 1042
  teeth, abscessed, 876
    cavity preparation in, 271, 957
    exposed pulps in, 876
    filling materials for, 275, 966
    if they could talk, 196
    influence of orthodontic movement of, upon germs of permanent teeth, 883
    low fusing metal inlays for filling, 577
    nonvital, 181
    premature loss of, 10
    retention of, 10
    width, enamel surface area, and volume of crown of, 477
Dental and medical service, experiment in, 1187
  anomalies, etiology of, 9
  arches, changes in dimensions and form of, with age, 357
    growth and development of, 928
  caries, building resistance to, 456
  cements, 168, 1006
  clinic, Murry and Leonie Guggenheim, 777
  Congress of Paris, twelfth, 1002
  education by radio, 499
  health education, public, 263
    of child, diet and, 860
    service, general plan for, 56
  histology and embryology, (book review), 686
  hygiene, attainment of health through, 682
  law of Arizona, 496
  office, psychology of handling child in, 283
  pharmacology and therapeutics, (book review), 199
  practice act of Colorado, 493
  problems, visual presentation of, to patient, 783
  profession, critical review of befogging the issue to, 1183
    befogging the issue to, 890
  school, children's dentistry in curriculum of, 173
    orthodontic education and, 491
Dental—Cont'd
  services, importance of, visual presentation of, to patient, 1018
  Society of State of New York, 108, 212, 306, 408, 505, 601, 1097, 1189
  students, anatomy for, (book review), 487
Dentist, pitfalls of, 286
Dentist's management of young children, 78
Dentistry and orthodontia, 394
  and public health, 383
  and the child, 1078
  child, observations on general practice of, 573
  course of study in, 689; (book review), 1177
  does it do its duty, 970
  for children, 775
    and orthodontia, 881
    in curriculum of dental school, 173
    some practical points on, 1163
  operative, for children, 957
  preventive, economic value of, 291
  relation of orthodontic problem to, 391
Dentition, deciduous and permanent, development and calcification of, (abstract), 592
Dentitions of Anglo-Saxon skulls from Bidford-on-Avon, in reference to malocclusion, 133
Desensitizing medicaments, 877
Development and calcification of human deciduous and permanent dentition, (abstract), 592
  and growth of jaws and dental arches, 928
  and heredity, 525
  of teeth and jaws, 1047
Dewey, Martin, memorial to, 503
Diagnosis, gnathostatic, in cross-section after ten years, 102
  of malocclusion, 807
  orthodontic, 313, 606
    important points for general practitioner in, 517
Diagnostic examination of anomalies in cases of unilateral distoclusion of crossed bite, 704
Diet and accessory food factors, 249
  and child's dental health, 860
  and food habits, 765
  balanced, 766
  treatment by, (book review), 386
Dietary deficiencies causing malocclusion, 12
Diphtheria, oral manifestations of, 753
Directory, orthodontic, Fisher's, 904
Disease and heredity, 526
Diseases, contagious, oral manifestations of, 751
Distoclusion, bilateral, complicated by impaction of both mandibular second premolars, 851
    treatment of, 336
  cases, 553
  myofunctional treatment of, behavior of temporomandibular joint in response to, 426
  unilateral, 1144
    diagnostic examination of anomalies in, 704
    treatment of, 452

Dual bite, problems of, with particular reference to temporomandibular articulation, 40
Dwarfed or absent maxillary lateral incisors, inheritance of, in three generations, 439
Dynamics, 725
Dystrophies of jaws, problem of, in dentistry, 29

E

Eastern Association of Graduates of Angle School of Orthodontia, 407
meeting of, 107
president's address, 5
Economic value of preventive dentistry, 291
